

# PRELUDESYNC™

RADIAL COMPRESSION DEVICE

**NEW!**  
Improved  
inflation  
valve

**The Next Generation  
of Radial Compression**

Not just a product, an experience.

## WHY PreludeSYNC?

### Personal

- Personalizes the patient's recovery experience with an exciting assortment of designs provided in each box.

### Effective\*

- The PreludeSYNC assists in achieving vascular hemostasis.
- Access site visibility - Large area with clear, unobstructed site visibility.

### Comfortable

- The PreludeSYNC is constructed from a soft material that lies against the patient's skin while providing an outer layer that is easy to clean.
- The balloon was designed to comfortably achieve patent hemostasis.

### Secure

- Band attachment was designed with a material that provides adjustable, secure placement of the device.

## OPTIONS

- Available in two sizes, 24 cm and 29 cm
- Available with the safety and convenience of a specialized connection device and syringe
- Also available with a standard luer device and standard syringe
