

SAFEGUARD FOCUS™

COMPRESSION DEVICE

Achieve targeted hemostasis with the SafeGuard Focus™, a specialized compression device used to protect closed surgical sites in the immediate postoperative period.*

Available in two unique versions—a contoured adhesive dressing and an adhesive-free flexible strap—the SafeGuard Focus is specifically designed for use in patients with pacemakers and implantable cardioverter defibrillator (ICD) pockets.

ADHESIVE

Targeted Pressure
Delivers approximately 2x the pressure versus handmade compression devices.¹

Unobstructed Site Visibility
Clear window facilitates surgical site assessment without device removal.

Comfortable Design
Soft thermoplastic balloon and nylon loop enhance patient comfort.

Durable Attachment
Medical grade adhesive backing or VELCRO® strap offer secure attachment.**

Ease of Use
Quick application without adjusting patient position.***

ADHESIVE-FREE
