

Suture-free fixation

The StayFIX fixation device is a secure yet comfortable solution for fastening percutaneous devices without the use of sutures.

StayFIX[®]

FIXATION DEVICE

StayFIX®

FEATURES AND BENEFITS

Suture-Free - Noninvasive StayFIX means no painful sutures and no exposure to sharps or sharps-related injury.

Secure - Medical grade adhesive secures devices to patients for up to 7 days.

Easy - Patients can apply and remove the StayFIX by themselves.

Absorbent - Hydrocolloid material reduces skin irritation by absorbing fluid leaking from the insertion site.

Comfortable - Soft material conforms to the body and reduces catheter movement.

Water Resistant - Patients can shower without covering up the StayFIX or insertion site.
